

This has been a very exciting year for our practice and the patients we serve. Despite the many changes which are going on in healthcare we will do everything in our power to take excellent care of our patients and their families. Our changes were all done in hopes of better serving our existing patients and new patients to our practice. Our building is 100% dedicated to patient care. It is spacious and completely renovated with updated equipment. We have our own parking lot with ample spaces for patients. We are conveniently located just blocks from Winthrop Hospital. Please consider all of the services we have to offer at Herricks Medical Office Building. We want to be the home for healthcare for you and your family.

HERRICKS MEDICAL OFFICE BUILDING

We proudly offer you and your family the following services:

WOMEN'S HEALTH PROFESSIONALS PLLC

General practice of Obstetrics and Gynecology, headed by Dr.'s Dolisi, Hanauer, Fretwell, Fradella and our outstanding practitioners Kerry Cummings, Laura Cerlini, Nancy Goley and Daniella Barro. We continue to deliver all babies at Winthrop Hospital and our Obstetrical practice is growing. As many practices are limiting their patients to Gynecology only, we welcome and enjoy delivering babies. New patients are welcome in our expanded facilities. We are open evenings and weekends.

HERRICKS MEDICAL PRACTICE PC

General Practice (Primary Care) Internal Medicine and Family Practice. This team is led by Dr. Tishe Dalipi. She is a Board Certified Internal Medicine Specialist. Dr. Dalipi and her team of nurses and Nurse Practitioners manage all adult medical issues in both men and women. If you or your family would like to become a patient of Herricks Medical Practice, just call our central number (516) 742-2224 and schedule an appointment. Dr. Dalipi can perform general health screens including diabetes testing, Cholesterol testing, and other routine screens that are recommended. She can also recommend vaccines that are needed, especially now during cold and flu season.

OBSTETRIC & GYNECOLOGICAL SUBSPECIALISTS

High Risk Pregnancy - Board Certified Specialists from Winthrop Perinatal Associates perform sonograms and consultations on high risk pregnant patients. They also read all technical sonograms such as level II and nuchal translucency studies. Dr. Jolene Muscat and Dr. Tim Rafael are two of the main physicians monitoring our high risk patients at Herricks Medical Office Building.

Urogynecology - Dr. George Lazarou is a Board Certified specialist that helps women with problems relating to the bladder and pelvis. He is currently the director of Urogynecology at Winthrop Hospital. If you or a family member has any problems with your bladder then stop suffering and make an appointment with Dr. Lazarou. He has helped many women with bladder issues over his career and is very experienced in this area.

Reproductive Endocrinology and Infertility - On site Board Certified infertility specialists that have helped many couples conceive and manage hormonal problems. They have opened an office in the Herricks Medical Office Building and consult on patients that need help in this area.

GENETIC COUNSELING

Melanie Charles, M.S., Geneticist. To offer comprehensive care to both pregnant and non-pregnant patients we offer genetic counseling. The cutting edge changes in medicine center around genetics. For that reason, we have a specialist focusing on genetic conditions. We offer testing in specific cancer genes such as BRCA for breast cancer. If you or any of your family have a history of cancer, contact our office for an appointment to see if there are any genetic links that can be tested.

PLASTIC AND COSMETIC SURGERY

Dr. Ronald Espinoza PC. Dr. Espinoza is trained in plastic and cosmetic surgery. He currently holds privileges at the Northshore LIJ healthsystem. Dr. Espinoza has made Herricks Medical his primary office location for consultations on Long Island. His initial consultations are free of charge. He is also performing certain cosmetic procedures within 191 Herricks at our AAAASF certified operating facility. Dr. Espinoza co-directs the Spa at 191 Herricks, Wh Spa Medical™. If you would like to consult with Dr. Espinoza just call our central number (516) 742-2224 and an appointment will be arranged. He consults with both men and women patients.

STATE OF THE ART OPERATING ROOM FOR OFFICE BASED SURGERY

Dr.'s Hanauer and Dolisi perform many of the routine gynecological procedures right in our office. Nassau Anesthesia Associates, the group of physicians that supply anesthesia services for Winthrop Hospital, also provide anesthesia to our patients here at Herricks Medical Office Building. Our facility is certified by New York State by one of the three credentialing service organizations recognized by the state (AAAASF). This certification requires rigorous safety checks and ongoing inspections. We have met all safety and other detailed qualifications and are able to provide this enhanced service to our patients. The following procedures are performed in our Office based surgical suite: Endometrial Ablations for heavy vaginal bleeding, Essure for female sterilization, Hysteroscopy, dilation and curettage, Loop Electrical Excision Procedure for precancer of the cervix as well as other minor procedures.

WH SPA™ MEDICAL

Located within 191 Herricks is an all new medical spa. The medical spa provides aesthetic services to our patients. We currently provide facials, peels, microdermabrasion, massages, sclerotherapy, Botox®, and Juvederm®. See the list inserted with this letter for services and prices. Treat yourself today.

WHAT TO EXPECT IN 2014

FROM HERRICKS MEDICAL OFFICE BUILDING

- Multispecialty group practices in Internal Medicine—we are currently working on an arrangement to have subspecialists in Internal Medicine license our facility to see patients. These subspecialties will include but are not limited to: Cardiology, Endocrinology, Diabetes and Nutrition, Gastroenterology, Pulmonary Medicine and Sleep Study Consultations.
- Laboratory to perform certain tests right in our own facility.
- Possibility of a mammography suite with general surgical consultations.

Our goal is to better serve you as our patient. We have worked hard to consolidate medical services you and your family may need so that you can have the convenience of being taken care of in one location with a compassionate and caring team of physicians, nurses and support staff. We want the Herricks Medical Office Building to be your home for healthcare. We feel that this model will allow our patients to receive superior care as we go forward into this new era of the ACA (Obamacare). Please call (516) 742-2224 today if you need an appointment with any of our physicians. If you have not had a yearly Gynecological checkup please let this letter serve as a reminder to call and make an appointment.

COMMUNICATION

We would like to communicate in the future using the Internet. Obamacare has mandated that doctors utilize electronic records. This will include electronic communications and prescriptions etc. Anticipating this, I would like to ask you to provide an email address for future updates and information about what is happening at 191 Herricks. I will not recommend providing any personal health information because most emails are not secure and HIPAA compliant as of yet.

Our website is www.herricksmedical.com

Email info@herricksmedical.com with your email

We are also communicating on Facebook and Twitter. On Facebook you can like us at Dr. Dolisi and Dr. Hanauer. On twitter you can follow us at @drdolisi. Thank you for the trust you have provided in us for your health and that of your family. We very much appreciate your trust. We look forward to seeing you and your family and friends in the new year and years to come. All the best to you and your family.
